

What benefits can Magnetude Jewelry have on your health?

Magnetude Jewelry uses the most powerful neodymium bio-magnets available within our jewelry. These special therapeutic magnets have been shown by worldwide university studies to have the following healthy effects on our body.

- Increase blood flow for increased health
- Decrease pain and inflammation, same as an NSAID drug without any side effects
- Promote deeper more restful sleep
- Counteract the negative effects of EMFs and 5G.

Here's the scoop....

You are electric! Your brain, heart, muscles, cell membrane and mitochondria all have an electric component to them. This makes you susceptible to the artificial electro-magnetic radiation emitted from all the tech devices around you such as cell phones, cell towers, WiFi, Bluetooth, routers, and more.

These devices are stealing your energy at the cellular level. They decrease the function of your mitochondria and cell membranes, which can make you more susceptible to symptoms, illness and disease, particularly over time. **The World Health Organization has deemed these EMFs a carcinogen!** Some countries are not allowing 5G as it is too strong, unhealthy and untested over time. We don't taste touch or smell EMFs, but they are around us and we live in a sea of them now.

EMFs can cause inflammation, brain fog, fatigue, headaches, aches and pains, ringing in the ears, heart palpitations.... to name a few.

Distance is your friend, the further you are from these radiation emitting devices the better! Don't keep your cell phone in your pocket or by your bed. But let's face it, you're not giving up your technology or cell phones, so you need some help to overcome the effects.

By wearing our beautiful interchangeable jewelry, whether it is a necklace, bracelet or earrings, you are helping replace your electrical energy that is being diminished. **Laws of physics state when you put a powerful magnet in an energy field (that's you), it increases the electric field!** Our jewelry helps to increase your cellular voltage. Don't worry, you can't over do it, more pieces are even better!

Not only are we helping counteract the EMFs, but remember, these therapeutic magnets also decrease inflammation and pain, helping so many people naturally without any negative side effects!

So wear our beautiful jewelry, enjoy the healthy benefits and feel better knowing you are helping your overall health and vitality with our 'smart' jewelry !! :)
